

fcConsultancy, September 2010 News Letter

Welcome to Septembers news letter, we have some great news this month as our facebook module for profile tabs goes live!

New Modules

SmoothSlide

New module smooth slide will be available to all users during September. Visit our demo site to have a sneak peek. Arrange any images uploaded to your site into a graphically pleasing slider and place on any or all pages!

SEO Spin

SEO site spin now included with our CMS, automate the spinning effect to climb the google ranks.

AjaxXplore

Award winning User friendly file and image manager now available for install!

New Services

PC Backup Service

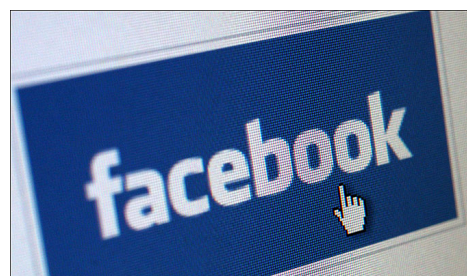

Working with comodo and online storage tech we can now offer a PC backup service. See our site for more information or contact support.

Shopping Cart

Latest version of open cart can be found in our Turbo Installer. Sign in and create a shopping cart within minutes.

Facebook Module.

Our designers and programmers have been working hard this year to give users the ability to publish entire web pages to a users facebook profile.

The published page appears as a full tab on the users profile and provides an excellent way to give your facebook fans a complete insight to information directly published on your web site.

"To see an example visit the [fconsultancy facebook page](#) and view the profile."

To install the CMS module log into your site and select it from the packages menu. If your unsure how to complete the Facebook setup please contact our support and request the set-up guide. SPST V5.2 required contact support to arrange a free upgrade!

Not on Facebook?

Using Facebook applications can be a great way for communicating promotions, contest and events. Again it is another interception point that can be leveraged to entice consumer engagement with your brand, your products or your service. Contact us for our **free** ebook "*Benefits of using facebook for business*"

Google Business Account.

After a successful partner ship with "ketnap ltd" we can now offer a complete google business set-up service.

We are encouraging all customers to make the switch and take advantage of the Google Business service which have many advantages over other online mail providers.

Existing customers can take advantage of the set-up service at "no-cost" and receive full support from fcconsultancy. If you would like more information please visit our site or contact support.
